CAN'T SIGN IT NOW.

Filson refuses to allow Further Signatures to Constitution.

Guthrie, July 29.—Those members of the constitutional convention who failed to get their names to the sheepskin copy of the constitution filed by President Murray with Secretary Filson will not be permitted to sign, now that the document is of record. One or two members who were unavoidably absent when the convention did the signing have been refused since by Secretary Filson. Not wishing to arbitrarily do so, Secretary Filson sought an opinion from Attorney General

Cromwell, who ruled that the addition of a name at this time took the same status as a word or line to the document itself, and should not be permitted.

In all probability the first legislature, by joint resolution will permit all delegates who failed to sign the constitution, and who desire to add their names to the historical document, to do so after statehood is proclaimed.

HAYWOOD A FREE MAN

Jury Reach Agreement in Celebrated Case Just at Dawn of Day--Other Defendants Will try for Bail

Boise, Idaho, July 28.—Into the bright sunlight of a beautiful Sabbath morning, into the stillness of a city drowsy with the lazy slumbers of a summer Sunday, William D. Haywood, defendant in one of the most noted trials involving conspiracy and murder that the country has ever known, walked today a free man, acquitted of the murder of former Gov. Frank Steunenberg.

Not the least interesting of the comments made on the case today was that of Harry Orchard. When told at the state penitentiary that Haywood had been acquitted, Orchard said:

"Well I have done my duty. I have told the truth. I could do no more. I am ready to take any punishment that may be meted out to me for my crime, and the sooner it comes the better."

The probability of a verdict of acquittal in the case of the secretary-treasurer and acknowledged leader of the Western Federation of Miners, had been freely predicted since yesterday, when Judge Freeman Wood read his charge, which was regarded as strongly favoring the defense in its interpretation of the laws of conspiracy, circumstantial evidence and the corroborations

of an accomplice who confesses. It was freely predicted that in the event of Haywood's acquittal the state would abandon the prosecution of his associates, Charles M. Moyer, president of the federation, and George A. Pettibone of Denver. Statements from counsel and from Gov. Gooding issued today dispel this view of the situation. Gov. Gooding said:

"The verdict is a great surprise to me and I believe all citizens of Idaho who have heard or read the evidence of the case. I have done my duty. I have no regret as to any action I have taken and my conscience is clear. As long as God gives me strength I shall continue my efforts for government by law and for organized society."

"The state will continue a vigorous prosecution of Moyer and Pettibone and Adams, and of Simpkins when apprehended. There will be no hesitation or retreat."

Application will be made to Judge Wood tomorrow to admit Moyer and Pettibone to bail, and it is said that in the case of Moyer, against whom the state is admitted to have its weakest case, a favorable consideration would not be unexpected.

OBSTRUCTIONISTS AT WORK

Plan to Have Republican Supreme Court Justice at Washington, Stay Proceedings and Delay Election

Washington, July 29.—The republicans of Oklahoma are preparing to make their final move in their fight to prevent the election schedule to decide the adoption of the state constitution. This will take the form of an appeal to one of the justices of the United States supreme court for a stay of proceedings pending a final hearing of the matter by that tribunal. That this course will be pursued was indicated by a telegram received by the clerk of the supreme court asking him where each of the justices can be reached at any time within the next ten days. The plan is to lay the

case before one of the justices and get him to grant the stay. It is not known which justice the matter will be laid before, but will probably be one of the republican members of the court. These are Harlan, Brewer, McKenna, Day, Holmes and Moody. It is thought it will likely be before Moody or Day.

If one justice refuses to grant the stay of proceedings another can be appealed to and grant it, but it is the usual practice of the court that where one justice refuses the desired order another will not grant it. Every member of the court is now on his vacation and will not return to Washington before fall.

COTTON UNHURT BY HEAT

Plant Braves the Drouth--Good Condition Prevails, Particular in the Southwest--Opening in South Tex.

Memphis, Tenn., July 29.—The Commercial Appeal today prints the following summary of the condition of the cotton crop, gathered by its correspondents throughout the Southern states:

Throughout the central and eastern cotton belt the crop's progress was less rapid during the week than for several weeks preceding. This was due to excessively high temperatures and conditions approaching a drouth in sections. Little or no actual damage resulted, however, and the plant seemed to hold up well under the conditions since it has been well cultivated, except in a few instances, and the previous supply of moisture well conserved. Correspondents think that another week of such high temperatures without rain would work considerable harm.

In Oklahoma and Texas the conditions are altogether favorable and no complaint whatever is heard. Of course the plant is still small and late, but is fruiting well, and has been well worked and is being kept clean, while the heat and dry weather perceptibly the activity of the boll weevil. Cotton is opening up very rapidly in southern Texas under the hot sun.

In most parts of the belt the last cultivation leaves the cotton clean. The plant is stocky and healthy and

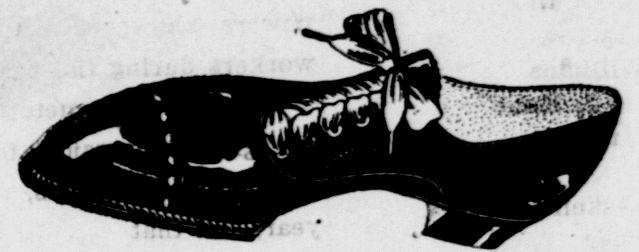

where fruiting has begun it is being well done. Such rains as fell were of local character; seldom heavy and scattered over a large area.

The best reports still come from Georgia and the Carolinas, where expectations approximate those of last year. Elsewhere over the belt, while the correspondents note the general improvement, expectations for the yield are still much below what is termed a good crop. Opinions are still confused by irregularity in size and age of plants.

Louisiana Cotton Needs Rain. New Orleans, La., July 29.—The Picayune says today:

The cotton crop in Louisiana and the southern half of Mississippi must have rain within the next six days or serious consequences are anticipated, according to reports received by the Picayune for the week ending today. In the greater part of this territory practically no precipitation has been experienced, the exception being occasional local showers that had no material effect on the rapidly maturing plant. In some localities the plant tends to wilt beneath the semi-drouth, but, despite this condition, remarkable progress has been made and the crop has recuperated to a great extent.

RESOLUTIONS OF THE FOURTH DISTRICT CONVENTION

Held at Ada, I. T., July 23rd and 24th.

Whereas, under the providence of

Almighty God, and in His infinite mercy, we, the members of the Women's Christian Temperance Union, of the Fourth District of Indian Territory, at Ada, Indian Territory, have met in annual convention, and desiring to recognize His power and providence, in all the affairs governing mankind, render to him our devout thanks for the preservation of our lives, and the manifold blessings and powers showered upon us, and our workers during the past year, and

Whereas, It is mete and proper that we give expression for all the assistance rendered us, during the past year, and that

Whereas, The protection of our homes, the control of the conditions, under which women, as well as men must live, love and labor, and most particularly the enforcement of prohibition laws, governing our country, rests entirely in the hands of the voters of the new state, and

Whereas, As consistent members of the Women's Christian Temperance Union, stand committed to the principles and practice of Temperance in all its phases, and to do all in our power, to the co-operation with other organizations, having prohibition of the liquor traffic, as their aim, be it

Resolved, That we, the members of the Women's Christian Temperance Union, of the Fourth District of Indian Territory, do petition the honorable judges, Townsend and Dickerson, that if any man be found guilty of violating the laws, by introducing and selling intoxicating liquors, said laws be enforced to the strictest letter, and punishment be meted out for the crime be commensurate, and to continued offenders, be made the full penalty, as prescribed by our statutes.

But we do respectfully petition the courts to refuse to remit the sentences as so often been done; that we commend our courts and judges thereof, for what they have done, to enforce our prohibitory laws, and urge that they be more strict in the future than in the past.

Resolved Further, That we extend our thanks to the efficient deputy marshals, Bailey, Brents, and Hammer for their successful efforts in arresting the whiskey peddlers at Sulphur, Indian Territory, on July 21st;

Second: To Miss Metyger for the free box of literature given to our district; to Mrs. Lindsay for the success of her efforts as editor of our paper, "The Helper"; to Mrs. St. John for her faithful and untiring work in our district and territory; to Mrs. Russell for her faithful services during the past year; to the pastor and members of the Christian church for the use of same; to the choir, to the Mayor and others who so cordially welcomed us; to the pastors for their words of encouragement and interest in the temperance cause.

And especially do we extend our thanks to the residents of Ada, Indian Territory for their hospitality and cordial reception in their homes, and to any and all others, who aided us in any way.

Knocking on the Lid.

From Kansas City Journal.

The saloon men of Perry have decided to make the saloon men of that city to make the people of that town sick of the lid, which is clapped upon the "thirst parlors" there after midnight. They have entered an agreement to sell small bottles at 15 cents straight instead of two for a quarter, making the customer feel like 30 cents.

Asleep in Coyote's Lair.

Guthrie, July 29.—Two children, aged five and six, of C. J. Schung, lived near Darlington, wandered away from home and were not found until two days later, when a searching party of neighbors finally located them fast asleep from exhaustion in a coyote's lair, underneath an embankment, where they had crawled to sleep.

Santa Fe After Oil.

Ardmore, I. T. July 27.—The Santa Fe railroad company is beginning the work of boring two new oil wells in the Wheeler field, near this city, and has also commenced the work of constructing a derrick to drill a third well. The results so far obtained in that field are good, both as to the oil supply and the supply of gas.

WANT CANNON TO STOP FRANTZ!

Uncle Joe's Presence at Tulsa Especially Desired by Chairman Hamon.

Oklahoma City, Oklahoma, July 29—

Is the attendance of Speaker Cannon of Illinois, and a whirlwind speech by him against the constitution and statehood, with promises of a new enabling act at the next session of congress, containing a legislative apportionment made ready for the new state, one of the big cards which Jake Hamon of Lawton plans to spring on Governor Frantz and his cohorts at the Tulsa convention?

Chairman Hamon yesterday admitted that he had been in communication with the speaker of the national house of representatives, but declares he has not yet received a definite answer.

The interest Cannon has taken in the question of statehood, which is declared to mean a solid democratic delegation from Oklahoma in the next congress, influences local republicans to feel that there is no question that Cannon will accept the invitation.

"There is no doubt that the presence of Speaker Cannon will have large influence in preventing the Tulsa convention from declaring for the nomination of a state ticket and the adoption of the constitution," said a local republican leader who has been known to be friendly to Frantz.

"Should Speaker Cannon see fit to take such a personal interest in the matter, and in his address ask the delegates to oppose the proposed constitution, as an undemocratic document, at the same time promising them to use his influence to secure the passage of an enabling act at the next session of congress which would in its provisions prevent the democrats from obtaining any of the political advantages charged against them in the present constitution, there is little doubt but that he would carry the convention by storm, and resolutions will be adopted declaring against the ratification of the constitution or the nomination of a state ticket. In that event the convention would naturally turn to Hamon, as the man who has consistently opposed the state ticket, to lead the fight as state chairman."

WOMEN RUN MERRY-GO-ROUND

In that Way Raise Funds for Confederate Reunion.

McAlester, I. T., July 29.—McAlester Chapter, United Daughters of the scheme for raising funds with which to entertain the confederate veterans here next month, when the veterans' organization of the two territories are to hold their annual reunion here. The ladies have chartered a merry-go-round and are conducting it for the benefit of the entertainment fund.

Members of the chapter, who are among the most prominent people of the city, have interested themselves in selling tickets and the merry-go-round has become a society function. Great preparations are being made here for the reunion, which will be held August 20-22, and it is expected that at least 10,000 guests will be in attendance.

WRECK NEAR TULSA.

Man Seriously Hurt—Engine and Cars Demolished.

Tulsa, I. T., July 28.—Running at a high rate of speed the second section of an east bound Frisco fast freight dashed into the first section at Dawson, near Tulsa, early today. Waller Morgan of Mansford, asleep in the caboose of the forward train was hurled through a window and is seriously injured. The engineer and fireman of the second section jumped, but were seriously bruised. The engine of the second section is wrecked and the caboos and ten loaded cars of the first section were demolished. The loss is estimated at \$50,000. Within sixteen months six serious freight wrecks have occurred at this same place.

BODY FOUND IN BOX CAR.

Three Bullet Wounds Indicate Brutal Murder—Man Unknown.

Chickasha, I. T., July 28.—All day the remains of an unknown man, apparently the victim of a most brutal murder, lay in the undertaking rooms where they were viewed by hundreds. When a Frisco freight train came in last night from Oklahoma City trainmen found the lifeless body in a box car, three bullets through the heart, one through the abdomen, another through the neck, and the ears completely severed as with a knife. Two small pictures, one of the dead man and the other of a more elderly person, and a pass on the Enid street the man's identity. He was dressed as a laborer, of average build, smooth face and about 26 years old.

So far efforts to establish his identity and to find any trace of the perpetrator of the crime, have been futile. The remains will be held here pending an investigation.

Be Good to the Housewife

We have just two QUICK MEAL Gasoline Burning Ranges in stock. They are sweat savers, time savers and money savers. It takes but a minute to light a QUICK MEAL GASOLINE RANGE, and when it is lighted the fuel does not cost near so much as for a coal burner. Standing by a QUICK MEAL Gasoline Range and by a red hot coal stove is two different things on these hot summer days. At the prices we are going to make on these Ranges, to close them out, they would soon pay for themselves in fuel alone.

\$27 and \$32.50

is the price we are going to make for this week only. The \$27.00 Range is a two burner stove, and the \$32.50 one has three burners. The price of a few tons of coal or a few cords of wood buys a QUICK MEAL Gasoline Range that will last many years and will pay for itself in a few months. If you never used a QUICK MEAL Gasoline Range you should come in and see these, and if you never saw one you should by all means come in and see them. This offer lasts one week only.

To the City Federation of Women's Clubs and Societies:

We, your committee, duly appointed to inspect the premises of the boys and girls of the city of Ada, who are contesting for the four cash prizes offered by your clubs, societies and Ada National Bank for the most cleanly and slightly grounds, beg leave to submit the following list of the names of contestants with their respective gradings:

FIRST WARD.

Oscar Chauncey	99
Clifford Hardin	98
Harmon Ebeley	97
FerrisMcKeown	97
Hugh Biles	95
Cecil Brents	88
Elizabeth Ingram	85
George Armstrong	85
Quitman Prewitt	85
Betsy Faust	50
Garrett	50
Gertrude Jones	50
Galora Mossman	50

SECOND WARD.

Henry M. Furman, Jr.	90

Albert	90

THIRD WARD.

Grady Cole	99
Eddy Haley	98
Verlin Goad	87

FOURTH WARD.

Claude McMillan	90
Helen Orchard	75
Nellie Fisk	85

We wish to add there are a number of home grounds and lawns in excellent condition, kept by owners and hired help which deserve commendation therefore. We find the general sanitary and slightly condition of the city fairly good—we believe better than ever before in the city's history, but there is still much to be desired. It is hoped that the children who have low grades this month will do better. Our next report will be published the last of August.

Very respectfully submitted
Mrs. W. W. Sledge,
Mrs. J. E. Bills,
Mrs. R. F. King,
Mrs. J. Moore,
Mrs. C. O. Barton,

ICE CREAM SOCIAL AT OOLITE.

Ladies of that Community Entertain Saturday Night.

A News man Saturday night was present at an ice cream social and party given by the ladies of the Oolite community. It was held in the new town of Lawrence where the quarry of the cement company is located. Ice cream and cake and lemonade were served in abundance. A large crowd of visitors were present, and all enjoyed the occasion. Several wagon loads went out from Ada, enjoying the moon-light ride as well as the hospitality of the Oolite ladies.

Adopted Babe Very Sick.

Mr. and Mrs. Abe Crow are in town today, having brought their little adopted son here for medical treatment.

This is the child found last year near Mr. Crow's home, abandoned by its inhuman parents, it will be remembered. He was adopted by Mr. and Mrs. Crow, who have grown very fond of the little fellow, and naturally are very solicitous about his health. He bears the name of Lee Crow and will be a year old next Sunday.

The Elk's Benefit.

At the Elk's home last night a full house greeted the Elk's big show. While the weather was very warm yet the hall was quite cool and comfortable. Electric fans were kept in operation and helped wonderfully. The moving pictures are undoubtedly the best ever seen in Coalgate. The illustrated songs were beautifully presented, while Miss Montague pleased with new art poses and singing and dancing specialties. The great "Gan-eleau," the magician, gained new laurels in his entertainment of clever mystic novelties and illusions. This is the last entertainment given by the clever company, so every one should take advantage of it and not miss tonight.—Coalgate Courier.

This company will be in Ada the next three nights at the court house. Prices 10c and 20c. 110-11f

Farmers' Congress.

From Kansas City Journal. Governor Frantz has been authorized to appoint 2,000 farmer delegates to the farmers' congress at Oklahoma City. As half the number will be democrats, Haskell will probably lose at least 1,000 votes.

MAN ACCUSED OF HORSE THEFT APPREHENDED.

After a Year's Chase Deputy Brents Lands His Man.

Ed Brents, the wide-awake United States Marshal, seldom goes after a man that he does not get him.

This time it was a young fellow named Willard Ada, who is accused a little more than a year ago of stealing a valuable horse from J. W. Lynch, living between Roff and Franks. He rode the animal to the Texas line, where he discarded his old saddle and stole a better one. He then sold the outfit and disappeared, only to be located a short time later in Washington. Before he could be arrested he again disappeared, but Brents found he had gone to Oklahoma City. From there he went to Maud and from Maud went out near Avoca and was living with a brother-in-law when Brents, the sleuth, took him by surprise last Friday night. The marshal with his prisoner reached Ada Sunday morning. Brents says he gained a confession from the prisoner.

SULPHUR MEN'S BONDS REDUCED

James W. Bolen, attorney for the Sulphur men arrested last week for liquor offenses and placed under heavy bonds ranging from \$1,500 to \$3,000 appeared before Judge Townsend at Ardmore Saturday and on habeas corpus applications for fourteen of the men succeeded in getting all the bonds but one reduced to \$500. The judge knocked out the peace bond of \$500 which had been required of each. Since the sweeping reduction all the prisoners probably can secure bondsmen.

U. S. Commissioner U. G. Winn, who held the hearing and set the bonds in the cases, when seen by The News man, expressed himself frankly as chagrined at Judge Townsend's action. "The judge was certainly not fully advised in the premises," said the commissioner; "I feel sure he does not know how much trouble the officers have had with offenders at Sulphur, nor how strong the evidence and numerous the witnesses produced against the men last week."

As to knocking out the peace bonds on the ground that the commissioner had no authority to require same, Judge Winn produced a letter from the United States Attorney of the Southern district attorney United State December. The letter refers to a decision of Judge Townsend rendered December 17, 1906, which clearly upheld the power of U. S. court commissioners to require such peace bonds, and the attorney urged Judge Winn to invoke that aid to good behavior whenever he thought it advisable, to the end that the liquor traffic might be suppressed in this district.

Warrall Will Speak.

PRIVILEGES OF A GENTLEMAN.

Youngster Probably Will Change Ideas in Course of Time.

There is a small boy in this town, says the Baltimore American, the son of a rather distinguished lawyer, who has decided opinions on what constitutes true aristocracy. One day recently a friend called upon his mother, and, while waiting for the hostess, was entertained by the small boy.

"What are you going to do when you grow up?" was the stereotyped question she propounded in the effort to start the conversation.

"Oh, I am going to smoke."

"Yes?"

"And chew."

"Oh!"

"And gamble."

"Indeed!"

"And swear."

"Really!"

"And drink corn whisky."

"And why are you going to do such things?" asked the visitor aghast.

"Oh, all southern gentlemen do them."

THERE IS A REASON.

The Medical Times Explains Why Doctors Oppose Patent Medicines.

The Medical Times for April in a moment of frankness explains the whole opposition of physicians to "patent" medicines which are taken without a prescription, in the following words:

"We will hardly repeat here the specific statement to the effect that in one year \$62,000,000 has been expended on patent medicines in the United States. Enough to give every practitioner in the country a yearly income of \$2,000. In the face of such facts as these, all talk of love of humanity, altruism, self-abnegation and the like becomes cheap and nauseating. It appears to us that such buncombe should give place to homely common sense."

Reliable authority states that the gross amount of the "patent" medicine business is about \$40,000,000 instead of \$62,000,000 but taking the Medical Times' figures as correct they represent an outlay of considerably less than \$1 per capita for home medication. The cost of doctors' fees exclusive of medicines except such as are dispensed for the same period, probably was approximately \$230,000,000. This is reached by allowing an average income of \$2,000 to each of the 115,000 physicians in the United States. Even allowing that a gross business of \$62,000,000 is to be divided between 115,000 physicians the income of each would not be increased more than \$540.

REHEARSAL IN A CAR.

Professional Entertainer Was Almost Too Successful.

"The other night, coming home in the car," said the professional entertainer, "I began to wonder if I could bring tears to my own eyes as I do to the eyes of the other people. I tried. I thought of all the wrongs I had committed, and felt sorry for people I had wronged. I thought of all the mistakes I had made that other people had profited by and pretty soon the tears began to gather in my eyes and roll down my cheeks."

"I forgot there were other people in the car who might notice me. Soon a woman got up from across the car and came to me."

"I see, sir," said she, "that you are in some trouble. Can I do anything to help you?"

"Lord bless you, no, madam," I told her, hastily wiping away my tears, "I am a professional entertainer and was practicing on myself. That's all."

One Point of View.

It was the desire of a teacher in a negro school to impress upon the minds of the youths the benefits derived at Tuskegee and other seats of learning for the ambitious negro. One day, in closing a brilliant discourse on this subject, in which Booker T. Washington was set forth as a criterion, she said to one little boy who had evidently heard not a word of her talk:

"Now 'Rastus, give the name of the greatest negro?"

The answer was surprisingly forthcoming—"Joe Gans!"

The Psychological Moment.

The fact that Priam was closeted with the adjuter did not prevent Cassandra from dropping in to say that she had told him just how it would be.

"She was all I saved," murmured the burnt-out monarch, jerking his thumb at the retiring prophetess.

"Say no more," rejoined the other. "We'll call the loss total, and if I could make it any more than that, old man, I'd do it, under the circumstances."

This incident shows the value of a word spoken at the right time.—Puck.

A Human Brick.

When Herman Unger, a commercial traveler down Boston way, concluded to depart this life he desired some disposition of his body which would preclude resurrection. Accordingly he decreed that his corpse be cremated and that the ashes be mixed with sufficient cement to form a solid rock. Upon his demise recently his relatives carried out his wishes. Mixing five parts cement with one part ashes, they did the good Herman into a brick. Pressed into the face thereof are these words: "Herman Unger. Leave me in peace." But we believe that such a brick as Herman cannot, and should not, be left in peace to escape resurrection, says the St. Louis Republic. Herman should fit nicely into the golden and jasper streets of the happy future. If the road to hell is paved with good intentions, why not pave the road to heaven with cynical purpose? Why not prove that no poor mortal, however he seeks to escape happiness, can fail to come into it at last—be he no more than a beatified brick in the pavement of the Eternal City?

Sanitation of Small Towns.

We hear much of the reduction in the death rate of large cities in recent years, but very little about the improvement of the health of small towns. It is well known, says the Independent, that all the infectious diseases claim many less victims in city life than they did 25 years ago, and the reason for it is not far to seek. Cities established departments of health, gave to them ample powers, and then insisted on their being effective if their appropriations were to be continued. The consequence has been that not only has much suffering been spared, but thousands—nay even hundreds of thousands—of people are now alive who, in the words of one prominent sanitarian, have no business being alive—they would have been dead if the death rate that prevailed 20 years ago still obtained. Had they died their death would have been considered as from the hand of God. We know that their living is the result of the taking of some very simple measures for the prevention of disease.

Marriage ceremonies in India are full of pretty incidents. The chief incident of the better class Hindoo marriage ceremony is called the Bhaunri. It is the sevenfold circuit of a tree or post, or seven steps taken in unison. The seven steps are the seven grades of life. The husband, often a boy of 14, walks round and round solemnly with the end of his coat tied to the end of the cloth which his girl wife wears on her head, symbolical of their union. All the time they do this they must not look at each other, but upward. The Hindoo is bound to invite his whole caste, within a reasonable distance, to his wedding. Fire works play an important part in the rejoicings incident to an Indian marriage. The marriage season is limited to two or three months of the year.

How to get enough qualified teachers for its schools is a problem which continually perplexes New York city. A member of its board of education at the meeting last month, introduced a resolution instructing the superintendent to ascertain if teachers can not be obtained from other cities. He said that there are 300 vacancies with salaries beginning in the lowest grades at \$600 a year, and increasing at the rate of \$40 for each year of service, the pay is much better than that offered in smaller towns; but it costs more to live in New York, and one does not get so much for one's money in the way of pleasant human intercourse as in the country.

The complaints about the poor pay of the clergy are getting loud, and nobody disputes their validity. It is a solemn fact that the ministry stands almost alone among all the professions or occupations in which the emoluments or wages have not advanced correspondingly with the increased expenses of modern living. The clergymen have a perfect right to be indignant about it.

Algernon Charles Swinburne takes his constitutional so promptly each day that the neighbors set their watches by his movements. Thus we see that Rudyard Kipling is not the only poet in England who can justify his existence.

A judge has decided that a ventriloquist who has a farm to look after nowadays has trials enough without having to sit on a jury. Occasionally the goddess of justice lifts the ban from her eyes and winks good naturedly at the bystanders.

We have physical culture and sewing and cooking, as well as manual training, in our schools, but there is one thing lacking. Are we doing the right thing by the rising generation in not teaching scientific baseball?

Collieries Under the Sea.

At Cape Breton there are immense collieries being worked under the ocean. These submarine mines cover a thousand acres, and are being increased steadily. The mines are entered at the shore, and the operators follow the vein beneath the water for more than a mile. It might be expected that the weight of the water would force its way into the mine. The bed of the ocean is as tight as a cement cistern. A sort of fireclay lines the submarine roof of the mine, and the sediment above is held in place and packed down by the water pressure until there is not a crevice nor a drop of water from overhead.

LIFE INSURANCE A SACRED TRUST.

Responsibilities of Officers and Directors.

Evidently President Kingsley of the New York Life Insurance company has learned the great lesson of the times with respect to the responsibility and duty of directors of corporations. Speaking to the new board of trustees, on the occasion of his election to the presidency, he emphasized the fact that "life insurance is more than a private business, that life insurance trustees are public servants, charged at once with the obligations of public service and with the responsibilities that attach to a going business which at the same time must be administered as a trust."

He also realizes that similar responsibilities rest upon the officers of the company. "I understand," he says, "your anxiety in selecting the men who are day by day to carry this burden for you, who are to discharge this trust in your behalf, who are to administer for the benefit of the people involved the multitudinous and exacting details to which it is impossible for you to give personal attention. My long connection with the New York Life—covering nearly twenty years—my service in about every branch of the company's working organization, gives me, as I believe, a profound appreciation, not merely of the heavy burden you have placed on my shoulders, but of the standards of efficiency, the standards of faith, the standards of integrity, which must be maintained at all times by the man who serves you and the policyholders in this high office."

Best of all, perhaps, he feels that words are cheap, and that the public will be satisfied with nothing short of performance. "My thanks, therefore," he continues, "for an honor which outranks any distinction within the reach of my ambition, cannot be expressed in words; they must be read out of the record I make day by day."

MADE A NEW FASHION.

Good Joke Played in Old Days on Would-Be Fashionable.

Old Camden, in his "Remains," tells a good story of a trick played by a knight upon a would-be fashionable shoemaker. Sir Philip Calthrop purged John Drakes, the shoemaker of Norwich in the time of King Henry VIII, of the proud humor which our people have to be of the gentlemen's cut. This knight bought as much fine French tawny cloth as should make him a gown, and sent it to the tailor's to be made. John Drakes, a shoemaker, coming to this tailor's and seeing the knight's gown cloth lying there, bid the tailor buy cloth of the same price and pattern and make it of the same fashion as the knight's. Not long after the knight, coming in to the tailor to be measured for his gown, and perceiving the like cloth lying there, asked whose it was. "John Drakes," the shoemaker, who will have it made of the self-same fashion that yours is made of." "Then make mine as full of cuts as the shears will make it!" John Drakes had no time to go for his gown till Christmas day, when he meant to wear it. Perceiving the same to be full of cuts, he began to swear at the tailor. "I have done naught but what you bid me," quoth the tailor, "for as Sir Philip Calthrop's garment is, even so have I made yours." "By my lather!" quoth John Drakes, "I will never wear gentlemen's fashions again!"—London T. P.'s Weekly.

COULDN'T KEEP IT.

Kept It Hid from the Children.

"We cannot keep Grape-Nuts food in the house. It goes so fast I have to hide it, because the children love it so. It is just the food I have been looking for ever so long; something that I do not have to stop to prepare and still is nourishing."

Grape-Nuts is the most scientifically made food on the market. It is perfectly and completely cooked at the factory and can be served at an instant's notice, either with rich cold cream, or with hot milk if a hot dish is desired. When milk or water is used, a little sugar should be added, but when cold cream is used alone the natural grape-sugar, which can be seen glistening on the granules, is sufficiently sweet to satisfy the palate. This grape-sugar is not poured over the granules, as some people think, but exudes from the granules in the process of manufacture, when the starch of the grains is changed from starch to grape-sugar by the process of manufacture. This, in effect, is the first act of digestion; therefore, Grape-Nuts food is pre-digested and is most perfectly assimilated by the very weakest stomach. "There's a Reason."

Made at the pure food factories of the Postum Co., Battle Creek, Mich. Read the little health classic, "The Road to Wellville," in pkgs.

MINERS' ETIQUETTE

STRICT RULES GOVERN IN THE WESTERN DESERT.

It is Not Considered Polite to Ask Where Any Man's Claims or Secret Water Holes Are Located.

"Never ask a man anything about his mine; he won't tell you if you do. It isn't etiquette to ask such questions on the desert."

Thus spoke J. Heineman, late of Beatty, an old timer in Death valley and the desert.

"You see, when one miner meets another on the desert they stop, talk and pass pleasantries. One will ask the other how he's getting along and he will say 'good' or 'hard luck,' but that's about all. Neither asks for details or where the other has his claims located. If any man wants you to know he'll tell you without being asked. If not he won't tell you if you do ask."

"The fact is that if a man has a great body of low grade ore that he must have a force of men to work and ship to the smelters he must record it. But if he has a rich spot with free gold easily handled it is not necessary, and many times one doesn't care to have the world know about it and have everybody coming to dig all around. It often leads to troubles and litigation, jumping and all that sort of thing."

"If a property is in the mountains it is more necessary to record it for it is easier found. A man can be followed in the mountains but never out on the desert. I would like to see the man who could follow me on the desert if I don't want him to. I'll give him a chase that will make him very sick of his job. Of course in such cases a claim is never left unguarded if anyone should stumble upon it by accident. In such case possession will be nine points of the law. "This is so not only about mines but also about private secret water holes. You know some of these give so little water that once known to the general public they would be of no use to those who went to big trouble finding them, or to anyone else very soon, so they never tell. Let one who has such a place hidden find one in need he will share his water, and, if necessary, he will go and bring back a supply, but the other fellow doesn't know where it comes from. That's the finder's secret."

"Of course there are public watering places, especially along the stage routes. Some wells have been dug by individuals or companies who sell water. Lots of money has been expended in this way. The water problem is indeed a serious one on the desert."

"At some of the camps water is hauled by team and sells for as high as nine dollars a barrel. People who don't know think that is a terrible price, but it really leaves a very small profit for the long haul and the time lost and feed of teams. Often much of the water with which one starts is used by the horses."—Los Angeles Times.

HE TOOK A REST.

But Got It in a Different Way Than His Neighbor.

As it is undoubtedly true that one man's meat may be another man's poison, so it happens sometimes that what seems like work to one person is regarded as recreation by another.

"Had a good lecture on Alaska, didn't we, Eb?" asked one of Mr. Dodd's neighbors, meeting him the day after the lecture. "To sit there peaceful as pie for two hours, hearing him reel off the information and seeing those pictures cast on the screen was a grand rest for me, beat out with cranberrying as I be."

"It was a good enough talk," admitted Mr. Dodd, in a grudging tone, "but it didn't rest me any to speak of. Between having to set stock still without a chance to get in a word for two mortal hours and crane my neck looking at those views, I was pretty well wore when I got home."

"But I took the lantern out into the woodshed and by the time I'd split up a week's kindlings I felt kind of rested and calmed down."—Youth's Companion.

Crushing His Ardor.

They were seated on a bench in Central park the other night.

"Suppose, Marguerite," said the young man, in low but passionate tones, to the sweet young thing by his side, "suppose I told you every time I looked at you my head swims; suppose I told you your eyes are deep brown wells; suppose I told you the scent of your hair fairly intoxicates me; suppose (edging closer) I told you you are the sweetest, dearest little angel in all the world. What would you think?"

An answer came out of the darkness clear and cool: "I would think you had a brain storm."

The silence that followed was of the density commonly described as capable of being cut with a knife.

Bound to Be Talked About.

"Mrs. Smith's hair didn't used to be that color," said one at the club. "It used to be yellow, didn't it?"

"Yes, it did," admitted the other. "She changes the color every little while to give people something to say about her. They'd ignore her entirely if she didn't do something to attract attention, she's so insignificant."

President Jordan to Lecture.

President Jordan, of Stanford university, Cal., is on his way to Australia and New Zealand, where he will lecture before the colleges of the Antipodes on the American university system.

SKIN DISEASES HUMORS IN THE BLOOD

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while Psoriasis comes in scaly patches on different parts of the body. One of the worst forms of skin trouble is Salt Rheum; its favorite point of attack is the scalp, sometimes causing baldness. Poison Oak and Ivy are also disagreeable types of skin disease. The humor producing the trouble lies dormant in the blood through the winter to break out and torment the sufferer with the return of Spring. The best treatment for all skin diseases is S. S. S. It neutralizes the acids and removes the humors so that the skin instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble because they do not reach the blood. S. S. S. goes down into the circulation and forces out every particle of foreign matter and restores the blood to its normal, pure condition, thereby permanently curing every form of skin affection. Book on Skin Diseases and any medical advice desired sent free to all who write. S. S. S. is for sale at all first class drug stores.

\$210 Buys a Farm

Dr. Chas. F. Simmons has Cut Up His 95,000 Acre Ranch Just South of San Antonio and Will Sell You a Farm of From 10 Acres to 640 Acres, (Including Two Town Lots) for \$210. Payable \$10 per Month Without Interest.

San Antonio, Texas, April 22, 1907.

Dr. C. F. Simmons, San Antonio, Texas: Dear Sir—I have just returned from a trip over your Atascosa County property, and to say that I am surprised at what I saw, but fairly expresses my feelings. I had expected something pretty good, because I have considerable faith in your agents, whom I happen to know; but what I saw is far beyond my expectation. I drove hurriedly over probably twenty-five miles of ground, passing several of your flowing wells and tanks, and I don't believe that there is an acre of ground that is not fit for first-class cultivation. Upon my return to Little Rock I shall take out several more shares before they are gone, and will advise my friends all to take as many as they can afford. I have just written to my brother in Indiana, advising him to do this on my judgment. I certainly think your proposition is one of the most liberal propositions I have ever seen offered, and I certainly think that the people of South Texas will owe to you an everlasting debt of gratitude for the method you are using to settle this veritable garden of Eden with new people. I thank you for the courtesies extended me on my recent visit, and I trust the time will not be long when the division will occur, and I certainly shall return to Little Rock figuring on eventually coming back to Atascosa County. Yours very truly, E. A. KINGSLEY, City Engineer, Little Rock, Ark.

Write today for full particulars and photographs showing views on the ranch.

CANT SIGN IT NOW.

Filson refuses to allow further signatures to Constitution.

Guthrie July 21.—Those members of the constitutional convention who failed to get their names to the sheep skin copy of the constitution filed by President Murray with Secretary Filson will not be permitted to sign now that the document is of record. One or two members who were unavoidably absent when the convention did the signing have been refused since by Secretary Filson. Not wishing to arbitrarily do so, Secretary Filson sought an opinion from Attorney Gen-

eral Cromwell who ruled that the addition of a name at this time took the same status as a word or line to the document itself and should not be permitted. In all probability the first legislature by joint resolution will permit all delegates who failed to sign the constitution and who desire to add their names to the historical document to do so after statehood is proclaimed.

HAYWOOD A FREE MAN

Jury Reach Agreement in Celebrated Case Just at Dawn of Day—Other Defendants Will try for Bail

Boise Idaho, July 28.—Into the bright sunlight of a beautiful Sabbath morning into the stillness of a city drowsy with the lazy slumbers of a summer Sunday, William D. Haywood, defendant in one of the most noted trials involving conspiracy and murder that the country has ever known, walked today a free man acquitted of the murder of former Gov. Frank Steunenberg.

Not the least interesting of the comments made on the case today was that of Harry Orchard. When told at the state penitentiary that Haywood had been acquitted Orchard said:

"Well I have done my duty. I have told the truth. I could do no more. I am ready to take any punishment that may be meted out to me for my crime and the sooner it comes the better."

The probability of a verdict of acquittal in the case of the secretary-treasurer and acknowledged leader of the Western Federation of Miners had been freely predicted since yesterday when Judge Fremont Wood read his charge which was regarded as strongly favoring the defense in its interpretation of the laws of conspiracy, circumstantial evidence and the corrobor-

tion of an accomplice who confesses. It was freely predicted that in the event of Haywood's acquittal the state would abandon the prosecution of his associates, Charles M. Moyer, president of the federation, and George A. Pettibone of Denver. Statements from counsel and from Gov. Gooding issued today dispell this view of the situation. Gov. Gooding said:

"The verdict is a great surprise to me and I believe all citizens of Idaho who have heard or read the evidence of the case. I have done my duty. I have no regret as to any action I have taken and my conscience is clear. As long as God gives me strength I shall continue my efforts for government by law and for organized society."

The state will continue a vigorous prosecution of Moyer and Pettibone and Adams and of Simpkins when apprehended. There will be no hesitation or retreat.

Application will be made to Judge Wood tomorrow to admit Moyer and Pettibone to bail and it is said that in the case of Moyer against whom the state is admitted to have its weakest case a favorable consideration would not be unexpected.

OBSTRUCTIONISTS AT WORK

Plan to Have Republican Supreme Court Justice at Washington, Stay Proceedings and Delay Election

Washington July 29.—The republicans of Oklahoma are preparing to make their final move in their fight to prevent the election schedule to decide the adoption of the state constitution. This will take the form of an appeal to one of the justices of the United States supreme court for a stay of proceedings pending a final hearing of the matter by that tribunal. That this course will be pursued was indicated by a telegram received by the clerk of the supreme court asking him where each of the justices can be reached at any time within the next few days. The plan is to lay the

case before one of the justices and get him to grant the stay. It is not known which justice the matter will be laid before but will probably be one of the republican members of the court. These are Harlan, Brewer, McKenna, Day, Holmes and Moody. It is thought it will likely be before Moody or Day. If one justice refuses to grant the stay of proceedings another can be appealed to and grant it but it is the usual practice of the court that where one justice refuses the desired order another will not grant it. Every member of the court is now on his vacation and will not return to Washington before fall.

COTTON UNHURT BY HEAT

Plant Braves the Drouth--Good Condition Prevails, Particular in the Southwest--Opening in South Tex.

Memphis, Tenn., July 29.—The Commercial Appeal today prints the following summary of the condition of the cotton crop gathered by its correspondents throughout the Southern states:

Throughout the central and eastern cotton belt the crop's progress was less rapid during the week than for several weeks preceding. This was due to excessively high temperatures and conditions approaching a drouth in sections. Little or no actual damage resulted however and the plant seemed to hold up well under the conditions since it has been well cultivated, except in a few instances, and the previous supply of moisture well conserved. Correspondents think that another week of such high temperatures without rain would work considerable harm.

In Oklahoma and Texas the conditions are altogether favorable and no complaint whatever is heard. Of course the plant is still small and late but is fruiting well, and has been well worked and is being kept clean, while the heat and dry weather perceptibly the activity of the boll weevil. Cotton is opening up very rapidly in southern Texas under the hot sun.

In most parts of the belt the last cultivation leaves the cotton clean. The plant is stocky and healthy and

where fruiting has begun it is being well done. Such rains as fell were of local character, seldom heavy and scattered over a large area.

The best reports still come from Georgia and the Carolinas, where expectations approximate those of last year. Elsewhere over the belt, while the correspondents note the general improvement, expectations for the yield are still much below what is termed a good crop. Opinions are still confused by irregularity in size and age of plants.

Louisiana Cotton Needs Rain.
New Orleans, La., July 29.—The Picayune says today:

The cotton crop in Louisiana and the southern half of Mississippi must have rain within the next six days or serious consequences are anticipated, according to reports received by the Picayune for the week ending today. In the greater part of this territory practically no precipitation has been experienced, the exception being occasional local showers that had no material effect on the rapidly maturing plant. In some localities the plant tends to wilt beneath the semi-drouth, but, despite this condition, remarkable progress has been made and the crop has recuperated to a great extent.

RESOLUTIONS OF THE FOURTH DISTRICT CONVENTION

Held at Ada, I. T., July 23rd and 24th.

Whereas under the providence of Almighty God and in His infinite mercy we the members of the Women's Christian Temperance Union of the Fourth District of Indian Territory at Ada Indian Territory, have met in annual convention, and desiring to recognize His power and providence in all the affairs governing mankind, render to him our devout thanks for the preservation of our lives, and the manifold blessings and powers showered upon us and our workers during the past year and

Whereas, it is meet and proper that we give expression for all the assistance rendered us, during the past year and that

Whereas, The protection of our homes, the control of the conditions under which women, as well as men must live love and labor, and most particularly the enforcement of prohibition laws, governing our country, rests entirely in the hands of the voters of the new state, and

Whereas As constituted members of the Women's Christian Temperance Union, stand committed to the principles and practice of Temperance in all its phases and to do all in our power, to the co-operation with other organizations having prohibition of the liquor traffic as their aim be it

Resolved That we the members of the Women's Christian Temperance Union, do petition the honorable judges Townsend and Dickerson that if any man be found guilty of violating the laws by introducing and selling intoxicating liquors said laws be enforced to the strictest letter and punishment be meted out for the crime be commensurate and to continued offenders be made the full penalty as prescribed by our statutes

But we do respectfully petition the courts to refuse to remit the sentences as so often been done that we commend our courts and judges thereof for what they have done to enforce our prohibitory laws and urge that they be more strict in the future than in the past

Resolved Further That we extend our thanks to the efficient deputy marshals Bailey Brents and Hammer for their successful efforts in arresting the whiskey peddlers at Sulphur Indian Territory on July 21st

Second To Miss Metzger for the free box of literature given to our district to Mrs. Lindsay for the success of her efforts as editor of our paper The Helper to Mrs. St. John for her faithful and untiring work in our district and territory to Mrs. Russell for her faithful services during the past year to the pastor and members of the Christian church for the use of same to the choir to the youth and others who so cordially welcomed us to the pastors for their words of encouragement and interest in the temperance cause

And especially to extend our thanks to the residents of Ada Indian Territory for their hospitality and cordial reception in their homes and to all those who aided us in any way

Ardmore, I. T. July 27—The Santa Fe railroad company is beginning the work of boring two new oil wells in the Wheeler field, near this city, and has also commenced the work of constructing a derrick to drill a third well. The results so far obtained in that field are good both as to the oil supply and the supply of gas

WANT CANNON TO STOP FRANTZ

Uncle Joe's Presence at Tulsa Especially Desired by Chairman Hamon.
Oklahoma City, Oklahoma July 29—Is the attendance of Speaker Cannon of Illinois, and a whirlwind speech by him against the constitution and statehood with promises of a new enabling act at the next session of congress, containing a legislative apportionment made ready for the new state, one of the big cards which Jake Hamon of Lawton plans to spring on Governor Frantz and his cohorts at the Tulsa convention?

Chairman Hamon yesterday admitted that he had been in communication with the speaker of the national house of representatives, but declares he has not yet received a definite answer

The interest Cannon has taken in the question of statehood which is declared to mean a solid democratic delegation from Oklahoma in the next congress influences local republicans to feel that there is no question that Cannon will accept the invitation

"There is no doubt that the presence of Speaker Cannon will have large influence in preventing the Tulsa convention from declaring for the nomination of a state ticket and the adoption of the constitution, said a local republican leader who has been known to be friendly to Frantz

Should Speaker Cannon see fit to take such a personal interest in the matter, and in his address ask the delegates to oppose the proposed constitution as an undemocratic document at the same time promising them to use his influence to secure the passage of an enabling act at the next session of congress which would in its provisions prevent the democrats from obtaining any of the political advantages charged against them in the present constitution there is little doubt but that he would carry the convention by storm and resolutions will be adopted declaring against the ratification of the constitution or the nomination of a state ticket. In that event the convention would naturally turn to Hamon as the man who has consistently opposed the state ticket to lead the fight as state chairman

Tulsa I. T. July 28—Running at a high rate of speed the second section of an east bound Frisco fast freight dashed into a first section at Tulsa on the Tulsa and Oklahoma line. The front of the first section was crushed and the engine and cars were wrecked. The loss is estimated at \$50,000. Within sixteen months six serious freight wrecks have occurred at this same place

BODY FOUND IN BOX CAR.

Three Bullet Wounds Indicate Brutal Murder—Man Unknown.
Chickasha I. T. July 28—All day the remains of an unknown man apparently the victim of a most brutal murder lay in the undertaking rooms where they were viewed by hundreds. When a Frisco freight train came in last night from Oklahoma City train men found the lifeless body in a box car three bullet wounds through the heart one through the abdomen another through the neck and the ears completely severed as with a knife. Two small pictures one of the dead man and the other of a more elderly person and a pass on the Enid street the man's identity. He was dressed as a laborer of average build smooth face and about 26 years old

So far efforts to establish his identity and to find any trace of the perpetrator of the crime have been futile. The remains will be held here pending an investigation

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that in Catarrh, Halls Catarrh is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Halls Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

We have just two QUICK MEAL Gasoline Burning Ranges in stock. They are sweat savers, time savers and money savers. It takes but a minute to light a QUICK MEAL GASOLINE RANGE, and when it is lighted the fuel does not cost near so much as for a coal burner. Standing by a QUICK MEAL Gasoline Range and by a red hot coal stove is two different things on these hot summer days. At the prices we are going to make on these Ranges, to close them out, they would soon pay for themselves in fuel alone.

\$27 and \$32.50

is the price we are going to make for this week only. The \$27.00 Range is a two burner stove, and the \$32.50 one has three burners. The price of a few tons of coal or a few cords of wood buys a QUICK MEAL Gasoline Range that will last many years and will pay for itself in a few months. If you never used a QUICK MEAL Gasoline Range you should come in and see these, and if you never saw one you should by all means come in and see them. This offer lasts one week only.

We wish to add there are a number of home grounds and lawns in excellent condition, kept by owners and hired help which deserve commendation therefore. We find the general sanitary and sightly condition of the city fairly good—we believe better than ever before in the city's history, but there is still much to be desired. It is hoped that the children who have low grades this month will do better. Our next report will be published the last of August.

Very respectfully submitted

ICE CREAM SOCIAL AT OOLITE.

Ladies of that Community Entertain Saturday Night.

A News man Saturday night was present at an ice cream social and party given by the ladies of the Oolite community. It was held in the new town of Lawrence where the quarry of the cement company is located. Ice cream and cake and lemonade were served in abundance. A large crowd of visitors were present and all enjoyed the occasion. Several wagon loads went out from Ada enjoying the moonlight ride as well as the hospitality of the Oolite ladies.

HAN ACCUSED OF HORSE THEFT APPREHENDED.

After a Year's Chase Deputy Brents Lands His Man.

Ed Brents, the wide awake United States Marshal, seldom goes after a man that he does not get him.

This time it was a young fellow named Willard Ada who was accused of horse theft. He was caught in a trap more than a year ago of stealing a valuable horse from J. W. Lynch living between Roff and Frank. He was arrested on the Texas line.

He was taken to his old saddle and but one. He then sold the horse to a man in Washington. He was arrested there and he could be arrested here. He was taken to Oklahoma City. From there he went to Miami and from Miami went out near Avoca and was living with a brother in law when Brents the sleuth took him by surprise last Friday night. The marshal with his prisoner reached Ada Sunday morning. Brents says he gained a confession from the prisoner.

SULPHUR MEN'S BONDS REDUCED

James W. Bolen, attorney for the Sulphur men arrested last week for liquor offenses and placed under heavy bonds ranging from \$1,500 to \$2,000 appeared before Judge Townsend at Ardmore Saturday and on habeas corpus applications for fourteen of the men succeeded in getting all the bonds but one reduced to \$500. The judge knocked out the peace bond of \$500 which had been required of each. Since the sweeping reduction all the prisoners probably can secure bondmen.

U. S. Commissioner U. G. Winn, who held the hearing and set the bonds in the cases, when seen by The News man, expressed himself frankly as chagrined at Judge Townsend's action. "The judge was certainly not fully advised in the premises," said the commissioner, "I feel sure he does not know how much trouble the officers have had with offenders at Sulphur, nor how strong the evidence and numerous the witnesses produced against the men last week."

As to knocking out the peace bonds on the ground that the commissioner had no authority to require same, Judge Winn produced a letter from the United States Attorney of the Southern District attorney United States December. The letter refers to a decision of Judge Townsend rendered December 17, 1906, which clearly upheld the power of U. S. court commissioners to require such peace bonds, and the attorney urged Judge Winn to invoke that aid to good behavior whenever he thought it advisable, to the end that the liquor traffic might be suppressed in this district.

PRIVILEGES OF A GENTLEMAN.

Youngster Probably Will Change Ideas In Course of Time.

There is a small boy in this town, says the Baltimore American, the son of a rather distinguished lawyer, who has decided opinions on what constitutes true aristocracy. One day recently a friend called upon his mother, and, while waiting for the hostess, was entertained by the small boy.

"What are you going to do when you grow up?" was the stereotyped question he propounded in the effort to start the conversation.

"Oh, I am going to smoke."

"Yes?"

"And chew?"

"Oh?"

"And gamble?"

"Indeed?"

"And swear?"

"Really?"

"And drink corn whisky?"

"And why are you going to do such things?" asked the visitor aghast.

"Oh, all southern gentlemen do them."

THERE IS A REASON.

The Medical Times Explains Why Doctors Oppose Patent Medicines.

The Medical Times for April in a moment of frankness explains the whole opposition of physicians to "patent" medicines which are taken without a prescription, in the following words:

"We will hardly repeat here the specific statement to the effect that in one year \$62,000,000 has been expended on patent medicines in the United States. Enough to give every practitioner in the country a yearly income of \$2,000. In the face of such facts as these, all talk of love of humanity, altruism, self-abnegation and the like becomes cheap and nauseating. It appears to us that such buncombe should give place to homely common sense."

Reliable authority states that the gross amount of the "patent" medicine business is about \$40,000,000 instead of \$62,000,000 but taking the Medical Times' figures as correct they represent an outlay of considerably less than \$1 per capita for home medication. The cost of doctors' fees exclusive of medicines except such as are dispensed for the same period, probably was approximately \$230,000,000. This is reached by allowing an average income of \$2,000 to each of the 115,000 physicians in the United States. Even allowing that a gross business of \$62,000,000 is to be divided between 115,000 physicians the income of each would not be increased more than \$540.

REHEARSAL IN A CAR.

Professional Entertainer Was Almost Too Successful.

"The other night, coming home in the car," said the professional entertainer, "I began to wonder if I could bring tears to my own eyes as I do to the eyes of the other people. I tried. I thought of all the wrongs I had committed, and felt sorry for people. I had wronged. I thought of all the mistakes I had made that other people had profited by and pretty soon the tears began to gather in my eyes and roll down my cheeks."

"I forgot there were other people in the car who might notice me. Soon a woman got up from across the car and came to me."

"I see, sir," said she, "that you are in some trouble. Can I do anything to help you?"

"Lord bless you, no, madam. I told her, hastily wiping away my tears, 'I am a professional entertainer and was practicing on myself. That's all.'"

One Point of View.

It was the desire of a teacher in a negro school to impress upon the minds of the youths the benefits derived at Tuskegee and other seats of learning for the ambitious negro. One day, in closing a brilliant discourse on this subject, in which Booker T. Washington was set forth as a criterion, she said to one little boy who had evidently heard not a word of her talk:

"Now 'Rastus, give the name of the greatest negro?"

"The answer was surprisingly forthcoming—'Joe Gans!'"

The Psychological Moment.

The fact that Priam was closeted with the adjuster did not prevent Cassandra from dropping in to say that she had told him just how it would be.

"She was all I saved," murmured the burnt-out monarch, jerking his thumb at the retreating prophetess.

"Say no more," rejoined the other. "We'll call the loss total, and if I could make it any more than that, old man, I'd do it, under the circumstances."

This incident shows the value of a word spoken at the right time.—Puck.

ADA EVENING NEWS.

A Human Brick.

When Herman Unger, a commercial traveler down Boston way, concluded to depart this life he desired some disposition of his body which would preclude resurrection. Accordingly he decreed that his corpse be cremated and that the ashes be mixed with sufficient cement to form a solid rock. Upon his demise recently his relatives carried out his wishes. Mixing five parts cement with one part ashes, they did the good Herman into a brick. Pressed into the face thereof are these words: "Herman Unger. Leave me in peace." But we believe that such a brick as Herman cannot, and should not, be left in peace to escape resurrection, says the St. Louis Republic. Herman should fit nicely into the golden and jasper streets of the happy future. If the road to hell is paved with good intentions, why not pave the road to heaven with cynical purpose? Why not prove that no poor mortal, however he seeks to escape happiness, can fail to come into it at last—be he no more than a bearded brick in the pavement of the Eternal City?

Sanitation of Small Towns.

We hear much of the reduction in the death rate of large cities in recent years, but very little about the improvement of the health of small towns. It is well known, says the Independent, that all the infectious diseases claim many less victims in city life than they did 25 years ago, and the reason for it is not far to seek. Cities established departments of health, gave to them ample powers and then insisted on their being effective if their appropriations were to be continued. The consequence has been that not only has much suffering been spared, but thousands—nay even hundreds of thousands—of people are now alive who, in the words of one prominent sanitarian, have no business being alive—they would have been dead if the death rate that prevailed 20 years ago still obtained. Had they died their death would have been considered as from the hand of God. We know that their living is the result of the taking of some very simple measures for the prevention of disease.

Marriage ceremonies in India are full of pretty incidents. The chief incident of the better class Hindoo marriage ceremony is called the Bhauri. It is the sevenfold circuit of a tree or post, or seven steps taken in unison. The seven steps are the seven grades of life. The husband, often a boy of 14, walks round and round solemnly with the end of his coat tied to the end of the cloth which his girl wife wears on her head, symbolical of their union. All the time they do this they must not look at each other, but upward. The Hindoo is bound to visit his whole caste, within a reasonable distance, to his wedding. Fire works play an important part in the rejoicings incident to an Indian marriage. The marriage season is limited to two or three months of the year.

How to get enough qualified teachers for its schools is a problem which continually perplexes New York city. A member of its board of education at the meeting last month, introduced a resolution instructing the superintendent to ascertain if teachers can be obtained from other cities. He said that there are 300 vacancies with salaries beginning in the lowest grades at \$500 a year, and increasing at the rate of \$40 for each year of service, the pay is much better than that offered in smaller towns, but it costs more to live in New York, and one does not get so much for one's money in the way of pleasant human intercourse as in the country.

The complaints about the poor pay of the clergy are getting loud, and nobody disputes their validity. It is a solemn fact that the ministry stands almost alone among all the professions or occupations in which the emoluments or wages have not advanced correspondingly with the increased expenses of modern living. The clergymen have a perfect right to be indignant about it.

Algernon Charles Swinburne takes his constitutional so promptly each day that the neighbors set their watches by his movements. Thus we see that Rudyard Kipling is not the only poet in England who can justify his existence.

A judge has decided that a ventriloquist has a farm to look after nowadays has trials enough without having to sit on a jury. Occasionally the goddess of justice lifts the ban from her eyes and winks good-naturedly at the bystanders.

We have physical culture and sewing and cooking, as well as manual training, in our schools, but there is one thing lacking. Are we doing the right thing by the rising generation in not teaching scientific baseball?

Collieries Under the Sea.

At Cape Breton there are immense collieries being worked under the ocean. These submarine mines cover a thousand acres, and are being increased steadily. The mines are entered at the shore, and the operators follow the vein beneath the water for more than a mile. It might be expected that the weight of the water would force its way into the mine. The bed of the ocean is as tight as a cement cistern. A sort of fireclay lines the submarine roof of the mine, and the sediment above is held in place and packed down by the water pressure until there is not a crevice nor a drop of water from overhead.

LIFE INSURANCE A SACRED TRUST.

Responsibilities of Officers and Directors.

Evidently President Kingsley of the New York Life Insurance company has learned the great lesson of the times with respect to the responsibility and duty of directors of corporations. Speaking to the new board of trustees, on the occasion of his election to the presidency, he emphasized the fact that "life insurance is more than a private business, that life insurance trustees are public servants, charged at once with the obligations of public service and with the responsibilities that attach to a going business which at the same time must be administered as a trust."

He also realizes that similar responsibilities rest upon the officers of the company. "I understand," he says, "your anxiety in selecting the men who are day by day to carry this burden for you, who are to discharge this trust in your behalf, who are to administer for the benefit of the people involved the multitudinous and exacting details to which it is impossible for you to give personal attention. My long connection with the New York Life—covering nearly twenty years—my service in about every branch of the company's working organization, gives me, as I believe, a profound appreciation, not merely of the heavy burden you have placed on my shoulders, but of the standards of efficiency, the standards of faith, the standards of integrity, which must be maintained at all times by the man who serves you and the policyholders in this high office."

Best of all, perhaps, he feels that words are cheap, and that the public will be satisfied with nothing short of performance. "My thanks, therefore," he continues, "for an honor which outranks any distinction within the reach of my ambition, cannot be expressed in words; they must be read out of the record I make day by day."

MADE A NEW FASHION.

Good Joke Played in Old Days on Would-Be Fashionable.

Old Camden, in his "Remains," tells a good story of a trick played by a knight upon a would-be fashionable shoemaker. Sir Philip Calthrop purged John Drakes, the shoemaker of Norwich in the time of King Henry VIII, of the proud humor which our people have to be of the gentlemen's cut. This knight bought as much fine French tawny cloth as should make him a gown, and sent it to the tailor's to be made. John Drakes, a shoemaker, coming to this tailor's and seeing the knight's gown cloth lying there, bid the tailor buy cloth of the same price and pattern and make it of the same fashion as the knight's. Not long after the knight, coming in to the tailor to be measured for his gown, and perceiving the like cloth lying there, asked whose it was. "John Drakes' the shoemaker, who will have it made of the self-same fashion that yours is made of." "Then make mine as full of cuts as the shears will make it," John Drakes had no time to go for his gown till Christmas day, when he meant to wear it. Perceiving the same to be full of cuts, he began to swear at the tailor. "I have done naught but what you bid me," quoth the tailor, "for as Sir Philip Calthrop's garment is, even so have I made yours." "By my lather!" quoth John Drakes, "I will never wear gentlemen's fashions again!"—London T. P.'s Weekly.

COULDN'T KEEP IT.

Kept It Hid from the Children.

"We cannot keep Grape-Nuts food in the house. It goes so fast I have to hide it, because the children love it so. It is just the food I have been looking for ever so long; something that I do not have to stop to prepare and still is nourishing."

Grape-Nuts is the most scientifically made food on the market. It is perfectly and completely cooked at the factory and can be served at an instant's notice, either with rich cream, or with hot milk if a hot dish is desired. When milk or water is used, a little sugar should be added, but when cold cream is used alone the natural grape-sugar, which can be seen glistening on the granules, is sufficiently sweet to satisfy the palate. This grape-sugar is not poured over the granules, as some people think, but exudes from the granules in the process of manufacture, where the starch of the grains is changed from starch to grape-sugar by the process of manufacture. This, in effect, is the first act of digestion; therefore, Grape-Nuts food is pre-digested and is most perfectly assimilated by the very weakest stomach. "There's a Reason."

Made at the pure food factories of the Postum Co., Battle Creek, Mich. Road the little health classic, "The Road to Wellville," in press.

MINERS' ETIQUETTE

STRICT RULES GOVERN IN THE WESTERN DESERT.

It is Not Considered Polite to Ask Where Any Man's Claims or Secret Water Holes Are Located.

"Never ask a man anything about his mine; he won't tell you if you do. It isn't etiquette to ask such questions on the desert."

Thus spoke J. Heineman, late of Beatty, an old timer in Death Valley and the desert.

"You see, when one miner meets another on the desert they stop, talk and pass pleasantries. One will ask the other how he's getting along and he will say 'good' or 'hard luck,' but that's about all. Neither asks for details or where the other has his claims located. If any man wants you to know he'll tell you without being asked. If not he won't tell you if you do ask."

"The fact is that if a man has a great body of low grade ore that he must have a force of men to work and ship to the smelters he must record it. But if he has a rich spot with free gold easily handled it is not necessary, and many times one doesn't care to have the world know about it and have everybody coming to dig all around. It often leads to troubles and litigation, jumping and all that sort of thing."

"If a property is in the mountains it is more necessary to record it for it is easier found. A man can be followed in the mountains but never out on the desert. I would like to see the man who could follow me on the desert if I don't want him to. I'll give him a chase that will make him very sick of his job. Of course in such cases a claim is never left unguarded if anyone should stumble upon it by accident. In such case possession will be nine points of the law."

"This is so not only about mines but also about private secret water holes. You know some of these give so little water that once known to the general public they would be of no use to those who went to big trouble finding them, or to anyone else very soon, so they never tell. Let one who has such a place hidden find one in need he will share his water, and, if necessary, he will go and bring back a supply, but the other fellow doesn't know where it comes from. That's the finder's secret."

"Of course there are public watering places, especially along the stage routes. Some wells have been dug by individuals or companies who sell water. Lots of money has been expended in this way. The water problem is indeed a serious one on the desert."

"At some of the camps water is hauled by team and sells for as high as nine dollars a barrel. People who don't know think that is a terrible price, but it really leaves a very small profit for the long haul and the time lost and feed of teams. Often much of the water with which one starts is used by the horses."—Los Angeles Times.

HE TOOK A REST.

But Got It in a Different Way Than His Neighbor.

As it is undoubtedly true that one man's meat may be another man's poison, so it happens sometimes that what seems like work to one person is regarded as recreation by another.

"Had a good lecture on Alaska, didn't we, Elv?" asked one of Mr. Dodd's neighbors, meeting him the day after the lecture. "To sit there peacefully as pie for two hours, hearing him reel off the information and seeing those pictures cast on the screen was a grand rest for me, beat out with cranberrying as I be."

"It was a good enough talk," admitted Mr. Dodd, in a grudging tone, "but it didn't rest me any to speak of. Between having to set stock still without a chance to get in a word for two mortal hours and crane my neck looking at those views I was pretty well wore when I got home."

"But I took the lantern out into the woodshed and by the time I'd split up a week's kindlings I felt kind of rested and calmed down."—Youth's Companion.

Crushing His Ardor.

They were seated on a bench in Central park the other night.

"Suppose, Marguerite," said the young man, in low but passionate tones, to the sweet young thing by his side, "suppose I told you every time I looked at you my head swims, suppose I told you your eyes are deep brown wells; suppose I told you the accent of your hair fairly intoxicates me; suppose (edging closer) I told you you are the sweetest, dearest little angel in all the world. What would you think?"

An answer came out of the darkness clear and cool: "I would think you had a brain storm."

The silence that followed was of the density commonly described as capable of being cut with a knife.

Bound to Be Talked About.

"Mrs. Smith's hair didn't used to be that color," said one at the club. "It used to be yellow, didn't it?"

"Yes, it did," admitted the other. "She changes the color every little while to give people something to say about her. They'd ignore her entirely if she didn't do something to attract attention, she's so insignificant."

President Jordan to Lecture.

President Jordan, of Stanford university, Cal., is on his way to Australia and New Zealand, where he will lecture before the colleges of the Antipodes on the American university system.

With a smooth iron and Defiance Starch, you can launder your shirt-waist just as well at home as the steam laundry can; it will have the proper stiffness and finish, there will be less wear and tear of the goods, and it will be a positive pleasure to use a Starch that does not stick to the iron.

Thrift and stinginess are as similar as they are different.

So Common.

"Was no one injured in the railway collision, count?"

"No, but nevertheless it was a most painful situation. First, second, third and fourth-class passengers all mingled together! Simply unheard of!"

SKIN DISEASES HUMORS IN THE BLOOD

"When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while Psoriasis comes in scaly patches on different parts of the body. One of the worst forms of skin trouble is Salt Rheum; its favorite point of attack is the scalp, sometimes causing baldness. Poison Oak and Ivy are also disagreeable types of skin disease. The humor producing the trouble lies dormant in the blood through the winter to break out and torment the sufferer with the return of Spring. The best treatment for all skin diseases is S. S. S. It neutralizes the acids and removes the humors so that the skin instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble because they do not reach the blood. S. S. S. goes down into the circulation and forces out every particle of foreign matter and restores the blood to its normal, pure condition, thereby permanently curing every form of skin affection. Book on Skin Diseases and any medical advice desired sent free to all who write. S. S. S. is for sale at all first class drug stores.

I suffered with Eczema for forty years and could find nothing to cure me until I tried S. S. S. I suffered intensely with the itching and burning pustules would form from which there flowed a sticky fluid; crusts would come on the skin and when scratched, off they would come and leave a place of heat. I suffered agony in the long years I was afflicted, but when I used S. S. S. I found a permanent cure. There has never been any return of the trouble.

\$210 Buys a Farm

Dr. Chas. F. Simmons has Cut Up His 95,000 Acre Ranch Just South of San Antonio and Will Sell You a Farm of From 10 Acres to 640 Acres, (Including Two Town Lots) for \$210. Payable \$10 per Month Without Interest.

San Antonio, Texas, April 22, 1907.
Dr. C. F. Simmons, San Antonio, Texas:
Dear Sir—I have just returned from a trip over your Atascosa County property, and to say that I am surprised at what I saw, but fairly express my feelings. I had expected something pretty good, because I have considerable faith in your agents, whom I happen to know; but what I saw is far beyond my expectation.
I drove hurriedly over probably twenty-five miles of ground, passing several of your flowing wells and tanks, and I don't believe that there is an acre of ground that is not fit for first-class cultivation.
Upon my return to Little Rock I shall take out several more shares before they are gone, and will advise my friends all to take as many as they can afford.
I have just written to my brother in Indiana, advising him to do this on my judgment.
I certainly think your proposition is one of the most liberal propositions I have ever seen offered, and I certainly think that the people of South Texas will owe to you an everlasting debt of gratitude for the method you are using to settle this veritable garden of Eden with new people.
I thank you for the confidence extended me on my recent visit, and I trust the time will not be long when the division will occur, and I certainly shall return to Little Rock, signing on eventually coming back to Atascosa County. Yours very truly,
E. A. KINGSLEY

HAYWOOD A FREE MAN

Jury Reach Agreement in Celebrated Case Just at Dawn of Day--Other Defendants Will try for Bail

Boise Idaho, July 28.—Into the bright sunlight of a beautiful Sabbath morning into the stillness of a city drowsy with the lazy slumbers of a summer Sunday, William D. Haywood, defendant in one of the most noted trials involving conspiracy and murder that the country has ever known, walked today a free man acquitted of the murder of former Gov. Frank Steunenberg.

Not the least interesting of the comments made on the case today was that of Harry Orchard. When told that the state penitentiary that Haywood had been acquitted Orchard said:

"Well I have done my duty. I have told the truth. I could do no more. I am ready to take any punishment that may be meted out to me for my crime and the sooner it comes the better."

The probability of a verdict of acquittal to the case of the secretary-treasurer and acknowledged leader of the Western Federation of Miners had been freely predicted since yesterday when Judge Fremont Wood read his charge which was regarded as strongly favoring the defense in its interpretation of the laws of conspiracy, circumstantial evidence and the corroborations of an accomplice who confesses. It was freely predicted that in the event of Haywood's acquittal the state would abandon the prosecution of his associates, Charles M. Meyer, president of the federation, and George A. Pettibone of Denver. Statements from counsel and from Gov. Gooding issued today dispell this view of the situation. Gov. Gooding said:

"The verdict is a great surprise to me and I believe all citizens of Idaho who have heard or read the evidence of the case. I have done my duty. I have no regret as to any action I have taken and my conscience is clear. As long as God gives me strength I shall continue my efforts for government by law and for organized society."

The state will continue a vigorous prosecution of Meyer and Pettibone and Adams and of Simpkins when apprehended. There will be no hesitation or retreat.

Application will be made to Judge Wood tomorrow to admit Meyer and Pettibone to bail and it is said that in the case of Meyer against whom the state is admitted to have its weakest case a favorable consideration would not be unexpected.

OBSTRUCTIONISTS AT WORK

Plan to Have Republican Supreme Court Justice at Washington, Stay Proceedings and Delay Election

Washington, July 29.—The republicans of Oklahoma are preparing to make their final move in their fight to prevent the election scheduled to decide the adoption of the state constitution. This will take the form of an appeal to one of the justices of the United States supreme court for a stay of proceedings pending a final hearing of the matter by that tribunal. That this course will be pursued was indicated by a telegram received by the clerk of the supreme court asking him where each of the justices can be reached at any time within the next ten days. The plan is to lay the

case before one of the justices and get him to grant the stay. It is not known which justice the matter will be laid before but will probably be one of the republican members of the court. These are Harlan, Brewer, McKenna, Day, Holmes and Moody. It is thought it will likely be before Moody or Day.

If one justice refuses to grant the stay of proceedings another can be appealed to and grant it but it is the usual practice of the court that where one justice refuses the desired order another will not grant it. Every member of the court is now on his vacation and will not return to Washington before fall.

COTTON UNHURT BY HEAT

Plant Braves the Drouth--Good Condition Prevails, Particular in the Southwest--Opening in South Tex.

Memphis, Tenn., July 29.—The Commercial Appeal today prints the following summary of the condition of the cotton crop gathered by its correspondents throughout the Southern states.

Throughout the central and eastern cotton belt the crop's progress was less rapid during the week than for several weeks preceding. This was due to excessively high temperatures and conditions approaching a drouth in sections. Little or no actual damage resulted however and the plant seemed to hold up well under the conditions since it has been well cultivated, except in a few instances, and the previous supply of moisture well conserved. Correspondents think that another week of such high temperatures without rain would work considerable harm.

In Oklahoma and Texas the conditions are altogether favorable and no complaint whatever is heard. Of course the plant is still small and late but is fruiting well, and has been well worked and is being kept clean, while the heat and dry weather perceptibly the activity of the boll weevil. Cotton is opening up very rapidly in southern Texas under the hot sun.

In most parts of the belt the last cultivation leaves the cotton clean and the plant is stocky and healthy and

where fruiting has begun it is being well done. Such rains as fell were of local character, seldom heavy and scattered over a large area.

The best reports still come from Georgia and the Carolinas, where expectations approximate those of last year. Elsewhere over the belt, while the correspondents note the general improvement, expectations for the yield are still much below what is termed a good crop. Opinions are still confused by irregularity in size and age of plants.

Louisiana Cotton Needs Rain.
New Orleans, La., July 29.—The Picayune says today:

The cotton crop in Louisiana and the southern half of Mississippi must have rain within the next six days or serious consequences are anticipated, according to reports received by the Picayune for the week ending today. In the greater part of this territory practically no precipitation has been experienced, the exception being occasional local showers that had no material effect on the rapidly maturing plant. In some localities the plant tends to wilt beneath the semi-drouth, but, despite this condition, remarkable progress has been made and the crop has recuperated to a great extent.

RESOLUTIONS OF THE FOURTH DISTRICT CONVENTION

Held at Ada, I. T., July 23rd and 24th.

Whereas under the providence of Almighty God and in His infinite mercy we the members of the Women's Christian Temperance Union of the Fourth District of Indian Territory at Ada Indian Territory, have met in annual convention, and desiring to recognize His power and providence in all the affairs governing mankind, reader to him our devout thanks for the preservation of our lives, and the manifold blessings and powers showered upon us and our workers during the past year and Whereas, It is mete and proper that we give expression for all the assistance rendered us, during the past year and that

Whereas, The protection of our homes, the control of the conditions under which women, as well as men must live love and labor, and most particularly the enforcement of prohibition laws, governing our country, rests entirely in the hands of the voters of the new state, and Whereas As consistent members of the Women's Christian Temperance Union, stand committed to the principles and practice of Temperance in all its phases and to do all in our power, to the co-operation with other organizations having prohibition of the liquor traffic as their aim be it

Resolved That we the members of the Women's Christian Temperance Union, of the Fourth District of Indian Territory, do petition the honorable judges Townsend and Dickerson that if any man be found guilty of violating the laws by introducing and selling intoxicating liquors said laws be enforced to the strictest letter and punishment be meted out for the crime be commensurate and to continued offenders be made the full penalty as prescribed by our statutes

But we do respectfully petition the courts to refuse to remit the sentences as so often been done that we commend our courts and judges thereof for what they have done to enforce our prohibitory laws and urge that they be more strict in the future than in the past

Resolved Further That we extend our thanks to the efficient deputy marshals Bailey Brents and Hammer for their successful efforts in arresting the whiskey peddlers at Sulphur Indian Territory on July 21st

Second To Miss Metzger for the free box of literature given to our district to Mrs. Lindsay for the success of her efforts as editor of our paper The Helper to Mrs. St. John for her faithful and untiring work in our district and territory to Mrs. Russell for her faithful services during the past year to the pastor and members of the Christian church for the use of same to the choir to the Y. W. C. and others who so cordially welcomed us to the pastors for their words of encouragement and interest in the temperance cause

WANT CANNON TO STOP FRANTZ?

Uncle Joe's Presence at Tulsa Especially Described by Chairman Hamon.

Oklahoma City, Oklahoma July 24.—Is the attendance of Speaker Cannon of Illinois, and a whirlwind speech by him against the constitution and statehood with promises of a new enabling act at the next session of congress, containing a legislative apportionment made ready for the new state, one of the big cards which Jake Hamon of Lawton plans to spring on Governor Frantz and his cohorts at the Tulsa convention?

Chairman Hamon yesterday admitted that he had been in communication with the speaker of the national house of representatives, but declares he has not yet received a definite answer

The interest Cannon has taken in the question of statehood which is declared to mean a solid democratic delegation from Oklahoma in the next congress influences local republicans to feel that there is no question that Cannon will accept the invitation

"There is no doubt that the presence of Speaker Cannon will have large influence in preventing the Tulsa convention from declaring for the nomination of a state ticket and the adoption of the constitution, said a local republican leader who has been known to be friendly to Frantz. Should Speaker Cannon see fit to take such a personal interest in the matter, and in his address ask the delegates to oppose the proposed constitution as an undemocratic document at the same time promising them to use his influence to secure the passage of an enabling act at the next session of congress which would in its provisions prevent the democrats from obtaining any of the political advantages charged against them in the present constitution there is little doubt but that he would carry the convention in storm and resolutions will be adopted declaring against the ratification of the constitution or the nomination of a state ticket. In that event the convention would naturally turn to Hamon as the man who has consistently opposed the state ticket to lead the fight as state chairman

Members of the chapter who are among the most prominent people of the city have interested themselves in selling tickets and the merry-go-round has been a great success. Great preparations are being made here for the reunion which will be held August 22-23 and it is expected that at least 10,000 guests will be in attendance

WICK NEAR TULSA

Man Seriously Hurt, Injure and Cars Demolished.

Tulsa, I. T. July 24.—Running at a high rate of speed the second section of an east bound El Paso fast freight dashed into the first section at Dawson on the Tulsa branch today. When the train of passenger sleepers in the east bound El Paso freight train was backed through a window and is seriously injured. The engine and first car of the second section bumped but was seriously injured. The engine of the second section is wrecked and the engines and ten load cars of the first section were demolished. The loss is estimated at \$50,000. Within sixteen months six serious freight wrecks have occurred at this same place

BODY FOUND IN BOX CAR

Three Bullet Wounds Indicate Brutal Murder—Man Unknown.

Chickasha, I. T. July 24.—All day the remains of an unknown man apparently the victim of a most brutal murder lay in the unlikeliest room where they were viewed by hundreds. When a El Paso freight train came in last night from Oklahoma City train men found the lifeless body in a box car through the abdomen another through the neck and the ears completely severed as with a knife. Two small pictures one of the dead man and the other of a more elderly person and a pass on the El Paso street the man's identity. He was dressed as a laborer of average build smooth face and about 26 years old. So far efforts to establish his identity and to find any trace of the perpetrator of the crime have been futile. The remains will be held here pending an investigation

\$100 Reward, \$100. The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that in Catarrh, Halls Catarrh is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Halls Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Be Good to the Housewife

We have just two QUICK MEAL Gasoline Burning Ranges in stock. They are sweat savers, time savers and money savers. It takes but a minute to light a QUICK MEAL GASOLINE RANGE, and when it is lighted the fuel does not cost near so much as for a coal burner. Standing by a QUICK MEAL Gasoline Range and by a red hot coal stove is two different things on these hot summer days. At the prices we are going to make on these Ranges, to close them out, they would soon pay for themselves in fuel alone.

\$27 and \$32.50

is the price we are going to make for this week only. The \$27.00 Range is a two burner stove, and the \$32.50 one has three burners. The price of a few tons of coal or a few cords of wood buys a QUICK MEAL Gasoline Range that will last many years and will pay for itself in a few months. If you never used a QUICK MEAL Gasoline Range you should come in and see these, and if you never saw one you should by all means come in and see them. This offer lasts one week only.

Helen Orshard	76

Nettie Fisk 85
We wish to add there are a number of home grounds and lawns in excellent condition, kept by owners and hired help which deserve commendation therefore. We find the general sanitary and sightly condition of the city fairly good—we believe better than ever before in the city's history, but there is still much to be desired. It is hoped that the children who have low grades this month will do better. Our next report will be published the last of August.

Very respectfully submitted
Mrs. W. W. Sledge,
Mrs. J. E. Biles,
Mrs. R. F. King,
Mrs. J. Moore,
Mrs. C. O. Barton,

ICE CREAM SOCIAL AT OOLITE.

Ladies of that Community Entertain Saturday Night.

A News man Saturday night was present at an ice cream social and party given by the ladies of the Oolite community. It was held in the new town of Lawrence where the quarry of the cement company is located. Ice cream and cake and lemonade were served in abundance. A large crowd of visitors were present, and all enjoyed the occasion. Several wagon loads went out from Ada, enjoying the moonlight ride as well as the hospitality of the Oolite ladies.

Adopted Babe Very Sick.

Mr. and Mrs. Abe Crow are in town today, having brought their little adopted son here for medical treatment.

This is the child found last year near Mr. Crow's home, abandoned by his unknown parents. It will be remembered. He was adopted by Mr. and Mrs. Crow, who have grown very fond of the little fellow, and naturally are very solicitous about his health. He bears the name of Lee Crow and will be a year old next Sunday.

The Elk's Benefit.

At the Elk's home last night a full house greeted the Elk's big show. While the weather was very warm yet the hall was quite cool and comfortable. Electric fans were kept in operation and helped wonderfully. The moving pictures are undoubtedly the best ever seen in Coalgate. The illustrated songs were beautifully presented, while Miss Montague pleased with new art poses and singing and dancing specialties. The great "Gambler," the magician, gained new laurels in his entertainment of clever mystic novelties and illusions. This is the last entertainment given by the clever company, so every one should take advantage of it and not miss tonight.—Coalgate Courier.

This company will be in Ada the next three nights at the court house. Prices 10c and 20c. 110-111

Farmers' Congress.

From Kansas City Journal.
Governor Pratt has been authorized to appoint 2,000 farmer delegates to the farmers' congress at Oklahoma City. As half the number will be democrats, Haskell will probably lose at least 1,000 votes.

MAN ACCUSED OF HORSE THEFT APPREHENDED.

After a Year's Chase Deputy Brents Lands His Man.

Ed Brents, the wide-awake United States Marshal, seldom goes after a man that he does not get him.

This time it was a young fellow named Willard Ada, who is accused a little more than a year ago of stealing a valuable horse from J. W. Lynch, living between Rock and Franks. He is the animal to the Texas line, where he discarded his old saddle and took a better one. He then sold the horse and disappeared, only to be located a short time later in Washington where he could be arrested he again disappeared, but Brents found he had gone to Oklahoma City. From there he went to Maud and from Maud went out near Avoca and was living with a brother-in-law when Brents, the sleuth, took him by surprise last Friday night. The marshal with his prisoner reached Ada Sunday morning. Brents says he gained a confession from the prisoner.

SULPHUR MEN'S BONDS REDUCED

James W. Bolen, attorney for the Sulphur men arrested last week for liquor offenses and placed under heavy bonds ranging from \$1,500 to \$3,000 appeared before Judge Townsend at Ardmore Saturday and on habeas corpus applications for fourteen of the men succeeded in getting all the bonds but one reduced to \$500. The judge knocked out the peace bond of \$500 which had been required of each. Since the sweeping reduction all the prisoners probably can secure bondsmen.

U. S. Commissioner U. G. Winn, who held the hearing and set the bonds in the cases, when seen by The News man, expressed himself frankly as chagrined at Judge Townsend's action. "The judge was certainly not fully advised in the premises," said the commissioner; "I feel sure he does not know how much trouble the officers have had with offenders at Sulphur, nor how strong the evidence and numerous the witnesses produced against the men last week."

As to knocking out the peace bonds on the ground that the commissioner had no authority to require same, Judge Winn produced a letter from the United States Attorney of the Southern district attorney United States December. The letter refers to a decision of Judge Townsend rendered December 17, 1906, which clearly upheld the power of U. S. court commissioners to require such peace bonds, and the attorney urged Judge Winn to invoke that aid to good behavior whenever he thought it advisable, to the end that the liquor traffic might be suppressed in this district.
